1.0: INTRODUCTION

This document outlines plants, seeds, pests, diseases, disorders and beneficial animals for the following RHS qualifications in practical horticulture:

- **Level 1 Award in Practical Horticulture (500/9128/1)**
- **Level 2 Certificate in Practical Horticulture (501/0207/2)**
- **Level 3 Certificate in Practical Horticulture (500/9782/9)**

The plants named are those which are listed in the RHS Plant Finder 2011 – 2012 (perennial ornamental plants) and/ or the RHS Plant Finder online and are correct at time of print. For the purpose of these qualifications all plants have been grouped under headings which correspond to the assessment criteria within these qualifications. Although plants here have been listed under particular headings for convenience, they may more appropriately be listed under different headings in certain localities or climatic zones. Where common names have been listed these are the preferred common names as found in the RHS Plant Finder online.

- Centres will be formally notified if any significant changes are made to plant, seed, diseases, disorders or beneficial animals on this list.
- * denotes a new addition to the plant list for this verification year
- Where specific cultivars are listed these are of particular merit and widely available, but for many ornamental plants 'cv.' is listed; this indicates that candidates should have an awareness that there is more than one widely grown cultivar but that only one cultivar chosen by the centre needs to be assessed. **Where the 'Cultivar' (cv.) is not specified the candidate MUST record the name of the recognised cultivar chosen by their centre.**
- Where candidates are required to identify a range of seeds by generic name (level 2) or botanical name (level 3) these specimens can be chosen from any of the plants listed within this document. It is advised that the range of seeds chosen by the centre should not include seeds that they consider could pose a significant health risk to any candidate.
- Centres also have some leeway in making teaching relevant to their geographical area, as the full identification list contains many more specimens than the stated number of specimens to be assessed within particular units.

You can search the RHS Plant Finder online at <http://apps.rhs.org.uk/rhsplantfinder>

Please also refer to the document 'Assessment Information and Candidate Assessment Pro-formas' for further details about the assessment of all units for these qualifications.

Level 1 Award in Practical Horticulture

Unit: Identification of a range of common garden plants, weeds, pests and diseases.

- At level 1 learners are expected to be able to outline how the terms genus, species and cultivar are used in naming plants.
- **40 live plant** specimens to be assessed in the 'Identification of a range of common garden plants, weeds, pests and diseases' unit. Learners will be expected to use botanical names (genus, species, cultivar/variety or commercial designates (hybrids) where appropriate). Throughout the course it is anticipated that learners will study a wider range of specimens than those assessed within this particular unit. Please refer to the RHS assessment guidance for details of specimen groupings.
- Learners will **also** be able to identify a range of pests and diseases.

Level 2 Certificate in Practical Horticulture

Unit: Identification of a range of common garden plants, weeds, pests and diseases.

- At level 2 learners are expected to understand how plants are botanically named and be able to identify a range of seeds.
- **110 live plant** specimens to be assessed in the 'Identification of a range of common garden plants, weeds, pests and diseases' unit. Learners will be expected to use botanical names (genus, species, cultivar/variety or commercial designates (hybrids) where appropriate. Seeds by generic name). Throughout the course it is anticipated that learners will study a wider range of specimens than those assessed within this particular unit. Please refer to the RHS assessment guidance for details of specimen groupings.
- Learners will **also** be able to identify a range of pests, diseases and disorders and know a range of beneficial animals, birds and insects.

Level 3 Certificate in Practical Horticulture

Unit: Identification of a range of common garden plants, weeds, pests, diseases and disorders.

- At level 3 learners are expected to identify a range of plants and know their decorative merits.
- **115 live plant** specimens to be assessed in the 'Identification of a range of common garden plants, weeds, pests, diseases and disorders' unit. Learners will be expected to use botanical names (genus, species, cultivar/variety or commercial designates (hybrids) where appropriate. Seeds by genus only). Learners will also be able to identify certain characteristics of those specimens. Throughout the course it is anticipated that learners will study a wider range of specimens than those assessed within this particular unit. Please refer to the RHS assessment guidance for details of specimen groupings.
- Learners will **also** be able to identify a range of pest and diseases and know their characteristics and methods of control. Learners will also be able to identify disorders and describe the appropriate treatment.

2.0: DECIDUOUS AND EVERGREEN TREES

Genus	Species	Family	Preferred Common name
<i>Acacia</i>	<i>baileyana</i>	Mimosaceae	Mimosa, silver wattle
<i>Acacia</i>	<i>dealbata</i>	Mimosaceae	Mimosa, silver wattle
<i>Acer</i>	<i>dauricum</i>	Sapindaceae	Snake bark maple
<i>Acer</i>	<i>griseum</i>	Sapindaceae	Paper bark maple
<i>Acer</i>	<i>platanoides</i>	Sapindaceae	Norway maple
<i>Acer</i>	<i>pseudoplatanus</i>	Sapindaceae	Sycamore
* <i>Acer</i>	<i>rubrum</i>	Sapindaceae	Red maple
<i>Aesculus</i>	<i>x carnea</i>	Sapindaceae	Red horse chestnut
<i>Aesculus</i>	<i>hippocastanum</i>	Sapindaceae	Horse chestnut
<i>Alnus</i>	<i>cordata</i>	Betulaceae	Italian alder
<i>Alnus</i>	<i>glutinosa</i>	Betulaceae	Common alder
<i>Amelanchier</i>	<i>canadensis</i>	Rosaceae	Snowy mespilus
<i>Amelanchier</i>	<i>lamarckii</i>	Rosaceae	Snowy mespilus
<i>Betula</i>	<i>pendula</i>	Betulaceae	Silver birch
<i>Betula</i>	<i>utilis</i> var. <i>jacquemontii</i>	Betulaceae	Himalayan birch
<i>Carpinus</i>	<i>betulus</i>	Betulaceae	Common hornbeam
<i>Castanea</i>	<i>sativa</i>	Fagaceae	Sweet chestnut
<i>Catalpa</i>	<i>bignonioides</i>	Bignoniaceae	Indian bean tree
<i>Cercidiphyllum</i>	<i>japonicum</i>	Cercidiphyllaceae	Katsura tree
<i>Cercis</i>	<i>siliquastrum</i>	Caesalpiniaceae	Judas tree
<i>Cordyline</i>	<i>australis</i> 'Sundance'	Asparagaceae	Cabbage tree 'Sundance'
<i>Cordyline</i>	<i>australis</i> 'Torbay Red'	Asparagaceae	Cabbage tree 'Torbay Red'
<i>Crataegus</i>	<i>laevigata</i> cv.	Rosaceae	Midland Hawthorn
<i>Crataegus</i>	<i>monogyna</i>	Rosaceae	Common hawthorn
* <i>Crataegus</i>	<i>prunifolia</i>	Rosaceae	Broad-leaved cockspur thorn
<i>Eucalyptus</i>	<i>gunnii</i>	Myrtaceae	Cider gum
<i>Eucalyptus</i>	<i>pauciflora</i> subsp. <i>niphophila</i>	Myrtaceae	Snow gum
<i>Eucryphia</i>	<i>x nymansensis</i> 'Nymansay'	Cunoniaceae	Nyman's hybrid eucryphia 'Nymansay'
<i>Fagus</i>	<i>sylvatica</i>	Fagaceae	Common beech
<i>Fraxinus</i>	<i>excelsior</i>	Oleaceae	Common ash
<i>Fraxinus</i>	<i>ornus</i>	Oleaceae	Manna ash
<i>Gleditsia</i>	<i>triacanthos</i> 'Sunburst'	Caesalpiniaceae	Honey locust
<i>Ilex</i>	<i>x altaclerensis</i> cv	Aquifoliaceae	Highclere holly
<i>Ilex</i>	<i>aquifolium</i>	Aquifoliaceae	Common holly
<i>Juglans</i>	<i>regia</i> (F)	Juglandaceae	Common Walnut
<i>Laburnum</i>	<i>x watereri</i> 'Vossii'	Papilionaceae	Voss's laburnum
<i>Ligustrum</i>	<i>lucidum</i>	Oleaceae	Chinese Lucidum
<i>Liquidambar</i>	<i>styraciflua</i>	Hamamelidaceae	Sweet gum
<i>Liriodendron</i>	<i>chinense</i>	Magnoliaceae	Chinese tulip tree
<i>Liriodendron</i>	<i>tulipifera</i>	Magnoliaceae	Tulip tree
<i>Magnolia</i>	<i>x soulangeana</i>	Magnoliaceae	Saucer magnolia
<i>Malus</i>	<i>floribunda</i>	Rosaceae	Japanese crab
<i>Malus</i>	cv. (e.g. 'Golden Hornet')	Rosaceae	Crab apple
<i>Olea</i>	<i>europaea</i>	Oleaceae	Olive
<i>Platanus</i>	<i>x hispanica</i>	Platanaceae	London plane

<i>Platanus</i>	<i>orientalis</i>	Platanaceae	Oriental plane
<i>Populus</i>	<i>nigra</i> 'Italica'	Salicaceae	Black poplar
<i>Prunus</i>	<i>avium</i> 'Plena'	Rosaceae	Gean, wild cherry
<i>Prunus</i>	<i>cerasifera</i> 'Pissardii'	Rosaceae	Purple leafed plum
<i>Prunus</i>	<i>serrula</i>	Rosaceae	Tibetan cherry
<i>Prunus</i>	<i>x subhirtella</i> 'Autumnalis'	Rosaceae	Winter-flowering cherry
<i>Pyrus</i>	<i>calleryana</i> 'Chanticleer'	Rosaceae	Callery pear
<i>Pyrus</i>	<i>salicifolia</i> 'Pendula'	Rosaceae	Pendulous willow-leaved pear
<i>Quercus</i>	<i>coccinea</i>	Fagaceae	Scarlet oak
<i>Quercus</i>	<i>coccinea</i> 'Splendens'	Fagaceae	Scarlet oak 'splendens'
<i>Quercus</i>	<i>ilex</i>	Fagaceae	Holm oak
<i>Quercus</i>	<i>robur</i>	Fagaceae	Common oak
<i>Robinia</i>	<i>pseudoacacia</i> 'Frisia'	Papilionaceae	False acacia
<i>Salix</i>	<i>alba</i>	Salicaceae	White willow
<i>Salix</i>	<i>x sepulcralis</i> var. <i>chrysocoma</i>	Salicaceae	Golden weeping willow
<i>Sorbus</i>	<i>aria</i>	Rosaceae	Common whitebeam
<i>Sorbus</i>	<i>aucuparia</i>	Rosaceae	Rowan
<i>Sorbus</i>	<i>cashmiriana</i> Hedl.	Rosaceae	Kashmir rowan
<i>Stewartia</i>	<i>pseudocamellia</i>	Theaceae	Deciduous camellia
<i>Stewartia</i>	<i>sinensis</i>	Theaceae	Chinese stewartia
<i>Styrax</i>	<i>hemsleyanus</i>	Styracaceae	Hemsley snowball
<i>Tilia</i>	<i>x euchlora</i>	Malvaceae	Caucasian lime, Crimean lime
<i>Tilia</i>	<i>x europaea</i>	Malvaceae	Common lime
<i>Tilia</i>	'Petiolaris'	Malvaceae	Weeping silver lime

3.0: CONIFERS

Genus	Species	Family	Preferred Common name
<i>Abies</i>	<i>concolor</i> 'Compacta'	Pinaceae	Compact white fir
<i>Abies</i>	<i>koreana</i>	Pinaceae	Silver fir
<i>Abies</i>	<i>nordmanniana</i>	Pinaceae	Caucasian fir
<i>Abies</i>	<i>procera</i> Glauca Group	Pinaceae	Noble fir
<i>Araucaria</i>	<i>araucana</i>	Araucariaceae	Monkey puzzle
<i>Cedrus</i>	<i>atlantica</i> Glauca Group	Pinaceae	Atlantic cedar
<i>Cedrus</i>	<i>deodara</i>	Pinaceae	Cedar
<i>Chamaecyparis</i>	<i>lawsoniana</i>	Cupressaceae	Lawson's cypress
<i>Chamaecyparis</i>	<i>lawsoniana</i> 'Ellwood's Gold'	Cupressaceae	Lawson's cypress
<i>Chamaecyparis</i>	<i>pisifera</i> 'Boulevard'	Cupressaceae	Sawara cypress
<i>Cryptomeria</i>	<i>japonica</i> Elegans Group	Cupressaceae	Japanese cedar
<i>Cupressus</i>	<i>arizonica</i>	Cupressaceae	Arizona cypress
<i>Cupressus</i>	<i>cashmeriana</i>	Cupressaceae	Kashmir cypress
<i>Cupressus</i>	<i>macrocarpa</i> 'Goldcrest'	Cupressaceae	Monterey cypress
<i>x Cuprocyparis</i>	<i>leylandii</i>	Cupressaceae	Leyland cypress
<i>Ginkgo</i>	<i>biloba</i>	Ginkgoaceae	Maidenhair tree
<i>Juniperus</i>	<i>horizontalis</i> 'Blue Chip'	Cupressaceae	Creeping juniper
<i>Juniperus</i>	<i>x pfitzeriana</i> 'Pfitzeriana Aurea'	Cupressaceae	Creeping juniper
<i>Juniperus</i>	<i>scopulorum</i> 'Skyrocket'	Cupressaceae	Rocky mountain juniper
<i>Larix</i>	<i>decidua</i>	Pinaceae	European larch
<i>Metasequoia</i>	<i>glyptostroboides</i>	Cupressaceae	Dawn redwood
<i>Picea</i>	<i>abies</i>	Pinaceae	Common spruce, Norway spruce
<i>Picea</i>	<i>breweriana</i>	Pinaceae	Brewer's weeping spruce
<i>Picea</i>	<i>pungens</i> 'Koster'	Pinaceae	Colorado spruce
<i>Pinus</i>	<i>nigra</i>	Pinaceae	Black pine
<i>Pinus</i>	<i>radiata</i>	Pinaceae	Monterey pine
<i>Pinus</i>	<i>sylvestris</i>	Pinaceae	Scots pine
<i>Podocarpus</i>	<i>salignus</i>	Podocarpaceae	Willow-leaf podocarp
<i>Sequoia</i>	<i>sempervirens</i>	Cupressaceae	Coast redwood
<i>Sequoiadendron</i>	<i>giganteum</i>	Cupressaceae	Wellingtonia
<i>Taxodium</i>	<i>distichum</i>	Cupressaceae	Swamp cypress
<i>Taxus</i>	<i>baccata</i>	Taxaceae	Yew
<i>Taxus</i>	<i>baccata</i> 'Fastigiata'	Taxaceae	Irish yew
<i>Thuja</i>	<i>occidentalis</i> 'Rheingold'	Cupressaceae	American arbour-vitae, eastern white cedar, white cedar
<i>Thuja</i>	<i>plicata</i> 'Atrovirens'	Cupressaceae	Western red cedar
<i>Thuja</i>	<i>plicata</i> 'Zebrina' (v)	Cupressaceae	Western red cedar 'Zebrina'

4.0: DECIDUOUS, EVERGREEN AND WALL SHRUBS

Genus	Species	Family	Preferred Common name
<i>Abelia</i>	<i>x grandiflora</i>	Caprifoliaceae	
<i>Abelia</i>	<i>mosanensis</i>	Caprifoliaceae	Fragrant Abelia'
<i>Acacia</i>	<i>pravissima</i>	Mimosaceae	Oven's wattle
<i>Acer</i>	<i>palmatum</i>	Sapindaceae	Japanese maple
<i>Aesculus</i>	<i>parviflora</i>	Sapindaceae	Bottlebrush buckeye
